

SAGE Monthly Security / Firmware Update Notice

Post Date: 10/31/2023

Summary of security related changes for October 2023.

Vulnerability Update:

- None

Operational Update:

- DNPM: Fixed test for correctly formed DNP3 application headers when received from outstation. Test caused incorrect reject of application header in data responses.
- GUI: Improved error detection in malloc and calloc calls to prevent GUI task from crashing due to bad pointers.

Cybersecurity Update:

- None
